Mayor James M. Arnold,  
Seat Pleasant,  
Maryland.

Dear Mayor Arnold:

Sometime before work was started on our project in Seat Pleasant a committee from Seat Pleasant of which you were a member called at my office with reference to streets which would be operated under the first unit of the project. The original application called for work to be done on Valley Street, Vine Street, Roosevelt Avenue, and Chapel Road. At the time this committee was in my office it informally requested that Carmody Road be substituted for Vine Street in this first work unit. Before any substitution can be made for streets originally shown on the application it will be necessary for the Town Council to request this substitution by letter, setting forth in this request the reason for desiring the substitution and showing whereby it would be more beneficial to perform work on the street to be substituted than on the one originally requested.

If you still desire to have any substitution made for any of the four streets shown in the application kindly make this request of me by letter as soon as possible in order that approval for this substitution might be obtained through our Frederick Office.

Yours very truly,

  
M. H. Davis,  
Resident Engineer.

Mr Bernard Taylor,  
Valley Street,  
Seet Pleasant, Md.

Dear Sir: - The Mayor & Common Council  
at their last regular meeting ordered me to  
notify you that they request the connection of  
your premises with the sewer line on Valley  
Street.

This street at the present is under construction  
and this is an opportune time for the Suburban  
Sanitary Commission to make the connection, which  
will eliminate the opening of the sewer in the  
street after construction has been finished.

yours truly

clerk

Mr. Carroll C. Carrick
